

To the FCC: I strongly oppose the rule change proposed for June 2 to make it easier for media to come under one corporate ownership. As it is now, too few interests dominate media. Even though there are more TV and radio channels, what is heard is all too often the same message. In addition to this being anti-democratic, it is boring. To guard our democracy, to promote a free, informed and open society, the media must be fair and available to diverse voices. I emphatically urge you to do the right thing and oppose the monopolistic trend in our communications systems. Our society and political system will benefit in the long run. I am sure that most people would support your decision to oppose the change on June 2 if they were properly informed of the issue.
